

# Anvil Gothic Thumbblatch 91497 External Beeswax-

## Product information

Handle Length: 216mm  
Thumb Bar Length: 140mm  
Latch Length: 190mm

## Additional information

Traditionally used on a ledge and braced door, a thumb latch set is a decorative door latch with a thumb shaped lever. When the thumb shaped lever is pressed down this operates a thumb bar which passes through the door, this lifts the latch bar on the opposite side causing it to open.

Our external beeswax is unique to "From the Anvil" and is manufactured from an anti-corrosive beeswax which is salt tested to 480 hours. It has a matt richness and similarly to our standard beeswax the depth of colour ranges from blue to deep red ochre.

Our blacksmith thumbblatches are hammered into shape from mild steel using the traditional manufacturing method of an anvil and fire.

Thumbblatches are usually used in conjunction with a tee hinge on traditional plank doors.

Maximum door thickness: 55mm.

Supplied with matching wood screws.
