

Super Grip Solvent Free Grab Adhesive

Super Grip SF is a solvent free construction adhesive offering an instant and tough bond on virtually any porous or non-porous surfaces. Cures to form a superior bond strength.

Super Grip SF is the ideal multi-purpose adhesive, working on a wide variety of construction materials including wood, plastics, metals, concrete, plasterboard, brick, cork and much more. This means that it is ideal for applications such as fixing panelling, window sills, carpet strips, skirting, cove bases, aluminium strips, general wood fixings and repairs, etc.

As a solvent free formula Super Grip SF contains no harmful ingredients, making it safer for the environment and the user.

- * Do not apply to building materials that bleed oils, plasticisers or solvents.
- * Do not use on substrates where both are non porous.
- * Do not use as a mirror adhesive.
