

Alpha Chem All Trades Mitre Bonding Kit

Mitre MDF Kit is a set consisting of a high viscosity cyanoacrylate adhesive and activator which when used together create a rapid (10 seconds), high bond strength is achieved.

Ideal for wood mitre joints as well as numerous other jobs. Ideal for use on vertical surfaces as it will not drip or slump. Mitre MDF kit is particularly suited to bonding difficult substrates which have a porous or uneven nature.

For use on:

- * Fixing and repairing wooden parts i.e.
- * Suitable for MDF, wood, chip wood, rubber, most plastics, leather etc.
- * Especially suitable for applications where cure speed needs to be accelerated.

Please note:

- * May yellow when used on plastic –test a small inconspicuous area before full scale application.
- * Will become hard in container if not properly closed.
