

# Kirkpatrick 4064 Door Knob

The Oval Door Knob 4064 features a classic design and is ideal for doors. Please note this item is available in multiple options.

The mortice set is designed to be used with a mortice lock or latch. This consists of two knobs, two plates and two escutcheons. Spindle and fixing screws are supplied.

The rim set is designed to be used with a rimlock. This set consists of two knobs, one plate and one escutcheon. Spindle and fixing screws are supplied.

These knobs are also available with differing spindles.

Pitt spindles are a standard floating spindle. With this option the backplate or rose is attached to the knob.

Wilkes spindles have a screw fitting with the spindle. Wilkes sets are supplied with loose backplates.

Knob size: 64mm

Plate size: 64mm
