

DeWalt DW088K-XJ Laser Level Red

1 only available

Self-Levelling up to +/- 4° surface angle with automatic out of level indication and marks a levelled line in seconds. The indoor visible range is 10m, this can be extended if used with the DE0892 detector up to 50m. Robust and durable overmould design with thick glass ensures the laser maintains calibration under jobsite conditions.

- Self-levelling cross line laser is accurate to $\pm 0.3\text{mm/m}$ in levelling applications
- Two button operation and low battery indication for ease of use
- Built in magnetic pivot bracket mounts easily on metal surfaces
- includes 3 x AA batteries
