

Anvil 33043 - Black 4" x 2" x 4" Ball Bearing Parliament Hinge

These hinges are heavy duty and will project a door away from the frame by 2" when open which clears architraves, window boards etc. These hinges are manufactured with ball bearings in the knuckle to provide extra strength and a smooth action that will last for many years.

This product is sold with matching stainless steel wood screws and supplied as a pair.
